

*Address intubated patient risks—
with confidence.*

Every patient dependent on a ventilator for respiration is vulnerable. Ventilator-associated risks can result in increased length of stay and increased hospital costs.¹

RISKS of intubated patients	CLINICAL BENEFITS of the AnchorFast oral endotracheal tube fastener
VENTILATOR-ASSOCIATED EVENTS such as pneumonia, due to limited access to oral care.	EASES ACCESS TO THE ORAL CAVITY to optimise oral care. Findings suggest implementation of a comprehensive oral and dental care protocol can help reduce incidence of ventilator-associated pneumonia. ²
ORAL PRESSURE ULCERS from the tube resting too long in one place.	HELPS PREVENT FORMATION OF LIP ULCERS as part of a multifaceted approach. ^{3,4}
UNEXPECTED TUBE OCCLUSIONS caused by the patient.	HELPS PREVENT TUBE OCCLUSION (AnchorFast Guard only) with integrated tube protection sleeve.
