

# HARRY'S STORY

hello, my name  
is Harry.

I have problems  
when I urinate.

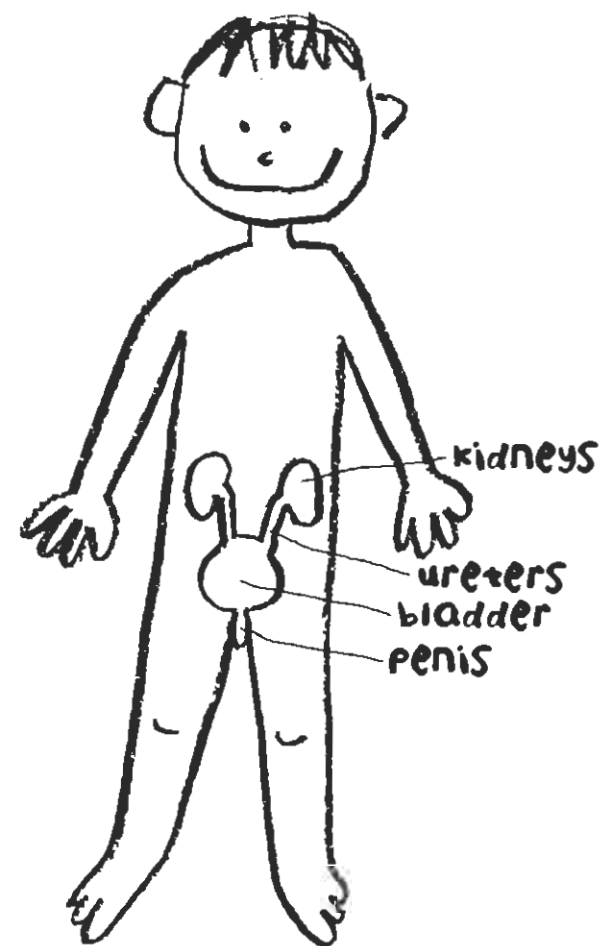

I use a special  
little tube called  
a catheter

that my nurse  
gave me.

THIS IS A PICTURE OF  
MY BLADDER, URETERS,  
KIDNEYS AND PENIS.

MY BLADDER IS LIKE A  
BALLOON INSIDE ME  
THAT STORES URINE.

Before I use  
my catheter

I have to wash  
my hands.

The catheter goes  
in my penis,

and into my bladder  
And lets out all  
the urine.

when the urine  
has stopped

I slide my  
catheter out

And wash my  
hands again.

Now that I've told  
my Story

I hope that you  
will see

That you can use  
your catheter

And be healthy just  
like me.
